

Parts & Components

We offer high-quality individual and replacement parts as well as small-batch series for industrial applications.

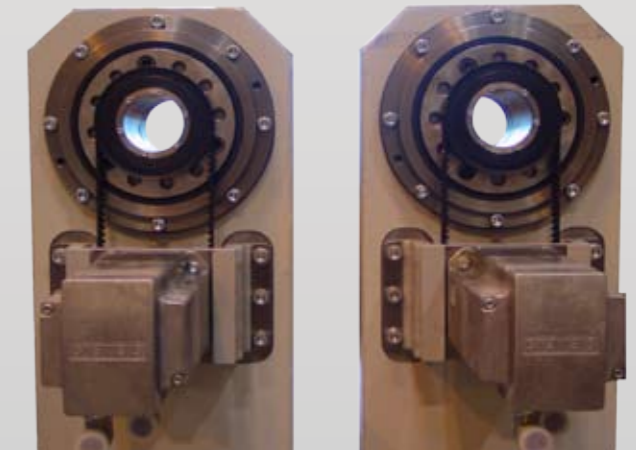

From simple cover plates to tailor-made machine housings, our outstanding qualified personnel does it all.

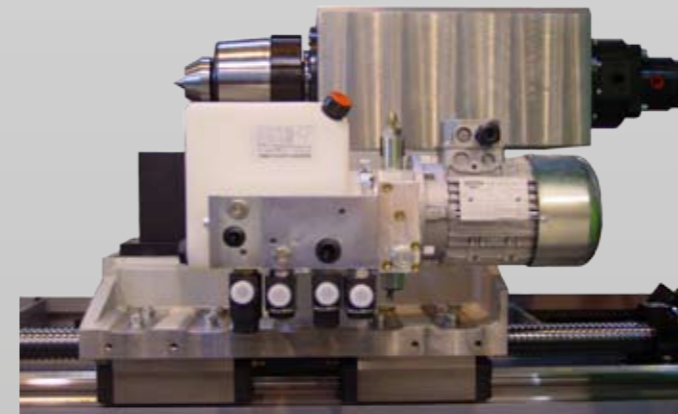

We fabricate mechanically produced parts, fixtures, welded components, assemblies and fully preassembled machine components according to your drawings and specifications.

Here are some examples of our many products:

Based on your plans and design specifications, we produce all types of sheet metal and steel articles in our extremely well equipped sheet metal workshop.
